KEY ASPECTS OF PLACEMENT PREPARATION

Preparation for placement drives is one of the key aspects that is taken care of with utmost diligence here at IQ City United World School of Business. Every semester we focus on skill development activities which ensures that students are well-equipped with the skill sets necessary to be the right fit for the organisation where they get hired.

In order to ensure that the students get exposure to the corporate world, we conduct **Industry Institute Interface** and **Outbound Experiential Learning**.

Industry Institute Interface focuses on inviting delegates from the corporate world to address the management students on diverse topics and interact with them to bridge the gap between theory and practical implementation of the concepts such that students are ready to face the changing dynamics of the corporate world and have a competitive edge over their peers.

Outbound Experiential Learning enables students to engage in team-building activities during outbound trips thereby nurturing communicational, interpersonal, leadership and analytical skills which are key skills required for their career growth.

We leave no stones unturned for preparation by the time the placement drives start. This usually starts from the day a student steps into the B-School. Let us take you through the preparation process we follow to guide our students in the best possible way.

Grooming Etiquettes

We focus on individual grooming which includes formal attire, minimal accessories along with personal hygiene. Every student is rigorously trained and monitored such that they adhere to corporate grooming rules even while attending classes. This enables them to inculcate the habit and is no longer a hindrance on the D-Day.

Resume Writing

Sessions are conducted to explain the basics of resume writing. Generally, we emphasise creating page-long curriculum vitae comprising of educational qualifications, projects undertaken, extra-curricular activities, areas of interest and personal information. Every student is assigned a mentor to guide them on an individual level to create a concise yet impactful resume.

Self-Introspection & Self-Evaluation

It is very important for every student to identify the key traits by virtue of which they are able to evaluate themselves and work on the development areas as guided or facilitated by respective mentors. This enables students to work harder on the areas like domain knowledge, current affairs, analytical skills, communication skills and so on.

Preparation for Aptitude Tests

Many companies (irrespective of the industry) conduct Aptitude Tests primarily as a mode of elimination. Students are taught the fundamental approaches to solve questions pertaining to quantitative techniques, logical reasoning, data interpretation and verbal ability. Subsequently, multiple mock tests are conducted to make them ready to face aptitude tests.

Preparation for Group Discussions and Personal Interviews

It is highly essential for all students to understand the guidelines of a group discussion. Furthermore, they should be well versed in current affairs to proactively contribute to the group discussion. We conduct numerous Mock GD sessions covering a wide array of topics to ensure that students can communicate effectively, exhibit leadership skills and have enough content to talk at length on a particular topic. We give equal importance to preparation for personal interview. We start with the basics relating to self-introduction, gradually level it up and ensure that all facets are covered such that students are confident enough to face any interview.

Overall, it is a continuous learning process for students to keep abreast with the ever-changing needs of the industry and develop the ability to adapt to the same. This gives a competitive edge to the students of IQ City United World School of Business with respect to their peers.

I'm lucky to do a live project with Colgate Palmolive Ltd. working on its shopper's engagement. Apart from working on the live project, I have also been selected for the summer internship at ITC Ltd. The frequent aptitude tests conducted helped me a lot to crack the tests and our professors also helped us enormously. We also had multiple personality grooming sessions wherein I gained a lot of knowledge and also learned to react in a given situation. Coming to group discussions. We had several interactive rounds and with such frequent interactions, our communication and soft skills have also increased our ability to communicate. With these sessions, a diverse area and a better scope to improvise oneself can be gained which resultantly increases one's expertise.

The most crucial support was given by IQ City UWSB Kolkata in the form of ample live projects, internships opportunities and final placement .

No stone was left unturned for the final placements as individual attention to every student was given in the form of special placement preparation classes, consisting of mock GD, PI, and aptitude classes to crack the selection rounds of the biggest companies across sectors that had visited the campus. Currently, I'm working at ITC Ltd. as an Area Executive.
